About This Game

Quest of Dungeons is a turn based dungeon crawler game featuring a good old 16-bit retro artistic look.

That thing people usually skip

An unspecific evil Dark Lord has stolen all the light, so your mission is to enter his lair and defeat him. That's it, now go get him.

Description

By playing as either a Warrior, a Wizard, a Assassin or a Shaman you have to traverse dungeons, defeat enemies and loot everything you can in order to survive. You can learn new skills in Tomes you find along the way and buy/sell items at shops.

The entire game is procedural so you won't find items/enemies in the same place each time you play.

- Boss encounters
- Quests
- 4 Difficulty levels
- Permadeath - Once you die, game over man, game over!
